INFORMATION

We are an Advertising Specialties Company.

Studio Gear Promotional Products Inc. has been supplying promotional products to the world since 1987. Our offices are located Southern California in the city of Glendale, in the foothill area to the North of Los Angeles.
Our team of consultants work hard for our clients, making it easy and simple for them to order their promotional items. We work behind the scenes to ensure that not only your order reaches you in perfect condition but that your deadlines are met. Believe us when we say we jump through hoops to get you the best! ***We deliver fast!***

Where should you spend your advertising dollar? A printed promotional piece has to compete for a moment of attention but a promotional item can sit on a client's desk for months and months. Our customers have used many different items to boost sales, award staff and promote their campaigns. There are many successes where these products have made an impact and resulted in increased sales or risen campaign awareness.

We are members of the national based Advertising Specialty Institute, and are fully computerised to offer still better service to our growing customer base. With electronic information on sourcing and pricing at our finger tips, we can rapidly search the entire country for the right item that will get your campaign noticed.

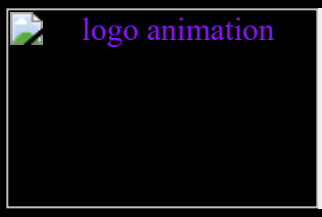
Welcome to

STUDIO GEAR'S ART DEPARTMENT.

What we do here (when we're not surfin' the net) is make your logos, slogans and messages ready for imprinting onto the promotional items of your choice. in these examples below the art department was used in helping the client prepare their logos for different products. These logos were imprinted onto a variety of products including key tags, buttons, T-shirts, backpacks, post-it pads, and embroidered onto caps and jackets.



Answering questions about getting your logo and/ ready for the printer is another thing we do.

Are these familiar?

How do I get my logo imprinted onto these promotional items?
What do I need to supply?
Can I just use my letter head as camera ready art?
I have a Macintosh computer, can I give you a diskette?
Mine's a PC, how about my diskettes?

About this capture

We produce all types of art, especially geared for the industry. From day to day we are designing logos, doing full color process separations in film, typesetting, airbrushing and computer graphics or in the dark room doing shots on the camera. In our "spare" time we surf !

There are many different types of printing, and each has its own specifications and the artwork needs to be prepared accordingly. Most applications require "Camera Ready Art Work". We are talking about a good quality black and white print of your logo. This can be computer generated on a laser printer or a high- output which can be obtained from a service bureau. We can also use a Stat. ("Stat" is short for "Photostat". A black and white print made by a photographic process.)

Ask us about your artwork.

E-mail your question or fax a copy of your logo or a sketch with a note and we'll get back with you with a price estimate and turnaround time. Remember to fill in all parts of the form.
